DRIVEWAY DETAILS

- 1- If existing gutter holds water the contractor shall notify the engineer before starting work. The new work will not be accepted if the gutter holds water across the drive or on either side.
- 2- The driveway contractor may saw cut and remove the complete curb and gutter section or the curb only on a 24 inch gutter section if the gutter is in good condition. Remove all of gutter when connecting with 10 inch gutter. Saw cuts shall be 2 inch or 1/3rd the depth of the gutter, whichever is greater. Saw cuts shall include the top and face of curb as well as the gutter. Saw cuts shall be made prior to the removal of concrete.
- 3- A 5 foot minimum radius is approved for on and two family residence not abutting a limited access or major street. All other driveways will have a minimum 15 foot radius. A smaller Radius may be used for driveways on NW 39TH Expressway if ODOT approval is obtained
- 4- Do not turn radius in front of adjacent property.
- 5- Drive to be at least curb height 6 foot back of curb face. Drive may increase or decrease in elevation back of this point.
